Introduction of SUNGSAN TRADING CO.,

We are very glad to introduce ourselves, Sung San Trading Co that are one of leading trading companies here in Korea.

Sung San Trading Co is established on March.27,1997. And We started to export saws and shears as farming and gardening tools to EC on Feb. 1998 as the point of beginning of business and now enlarging the export areas to all over the world. The high quality and steady quality control(QC) of saw and shears are well recognized from our several potential buyers in the world.

And then, the fabrics as the materials of bags and tents are added in our export product ranges on Oct. 2004. Now we are exporting the fabrics to all around world including South America. The reputation of the fabrics produced from Korea and China is very high, but the price is very resonable.

Recently we are trying to export the stationery including graver to Asia. To save the production cost, we adopted the strategy like outsourcing the parts of handle of graver from China. As a result, we became to be very competitive in quality and price.

We are doing our best efforts to supply the excellent products of high quality and low price to our valuable and precious customers throughout the world

We are very ready to serve you, valuable buyers with the goods of special high quality and resonable price anytime and always. So please explore our website freely and contact us without any hesitations.

We faithfully look forward to developing a very good and pleasant relationship with precious you in the near future.

Jung Sung-Gyo/President and all staffs of Sung San Trading Co.,

Normal Saw blade without impulse:
featuring hardness of HRC 55'

It is a traditional blade with an outer ring for easy blade change. It is portable.

The handle is made with synthetic rubber to ABS resin so there is no sliding.

With only one handle, you can use it by shifting from 240mm to 270mm, to 300mm blades, so it is convenient and economical.

실리콘 용기의 뒷마개와 형상이 같아
알 수형대로 결합해서 밀어 주므로
피스톤(piston)의 흔들림이 없어
실리콘액이 부드럽게 사출됩니다.
작업성이 뛰어납니다.
(실용신안, 디자인 출원)

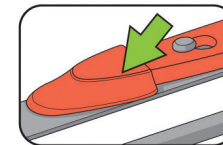

2개의 경화된 밀편은 강력하고, 확실하게,
부드럽게, 피스톤(piston)을 컨트롤 해주어
기본 좋은 시공을 보장합니다.
(실용신안, 디자인 출원)

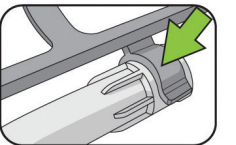

사용 후 실리콘액이 멈추어서 흐르지
않습니다. 작업능률의 극대화를 가져다
줍니다.
(발명특허, 디자인 출원)

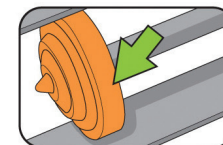

인체공학적 설계로써 시공자의 손등을
편안하게 받쳐주는 아름다운
날개(wing)입니다.
(실용신안, 디자인 출원)

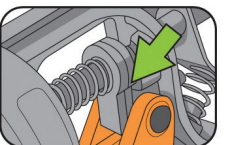

코너부분 또는 사출된 실리콘액의
표면이 불평할때 깨끗이 마무리하는
스푼(spoon)입니다. 세심한 배려입니다.
(실용신안, 디자인 출원)

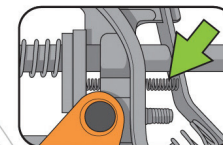

예비 노즐을 장착, 보관해 건설, 산업현장
시공의 편의성을 높였습니다.

Buyer :

This image shows a full page of handwriting practice paper. It contains ten identical rows of horizontal guidelines. Each row is composed of three lines: a solid black line at the top, a dashed black line in the middle, and another solid black line at the bottom. These lines are evenly spaced vertically across the entire page to help students learn letter height and placement.

Seller :

[illegible]

Notes

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There is no handwriting or other markings on the paper.
